

Concierge Care

Facial Covering Policy

Effective October 23, 2026 · Applies to the Concierge Care nurse registries listed below

Purpose

To comply with section 408.824, Florida Statutes, which limits when a licensed health care provider may require facial coverings.

Policy

Concierge Care does not require clients, referred caregivers, visitors or administrative staff to wear facial coverings, except where required by applicable law or in one of the following circumstances:

1. Conducting sterile procedures or working in a sterile area.
2. Working with a client whose treating health care practitioner has diagnosed or confirmed a condition affecting the immune system in a way known to increase the risk of infection from people without symptoms, and has determined that facial coverings are necessary for the client's safety.
3. Working with a client on droplet or airborne isolation.
4. Non-clinical, potentially hazardous activities where a facial covering is needed to prevent physical injury or harm under industry standards.

A client may request that a referred caregiver wear a facial covering in the client's home. The caregiver and client decide this between themselves as part of their independent arrangement. A referred caregiver may choose to wear a facial covering at any time. A caregiver who has symptoms of a communicable disease must follow Concierge Care's Health Requirements/Communicable Disease policy.

Availability

This policy is posted on our website and is available on request at any of the offices listed below. Regulatory reference: section 408.824, Florida Statutes.
